FOREWORD

TO compile a record of the school life of the students of Marion High School during 1934 and 1935 has been the aim of this year's staff.

It is our hope that this QUILL may help to keep the pleasures and labors of this year forever in our minds.

THEME

ALL about us we see and hear of the Great New Deal. Our newspapers, magazines, and even books are filled with discussions, pro and con of the N. R. A. Most of us who are in school are not brought into direct contact with the N. R. A. and its divisions. However, there is an administration with which we are familiar and which has many features comparable to the N. R. A. That administration is our school.

We have not tried to make a complete analogy between our school and the N. R. A. as only a partial one was desired. Within the covers of this book we hope you may catch a glimpse of that partial analogy. We have named it OUR NEW DEAL.

This opportunity to extend greetings to the students of Marion High School is a privilege.

Solon's advice to his pupils twenty-five hundred years ago is as good today as ever: "Know thyself."

If the school has helped you to know yourself —to know your talents, your interests, your limitations—it has served you immeasurably in planning your life. Your duty now is to use this knowledge wisely. Best wishes!

Your friend,

C. B. VERNON

The problems of tomorrow are yours. May you see the light leading to their solution. Success in your efforts is my fondest wish.

CLASS POEM

We'll go into a church some night,
With grey gowns on ourselves.
A man will speak with all his might
Of life.

He'll try his best to convince us
Of hardships just ahead,
Of cheat, deceit and bogusness,
With dreams.

We'll think it over for awhile
And say how true he is.
Then knowingly we'll quirk a smile
And let it pass.

A piece of paper we'll receive.
My Diploma is the name;
A voucher for twelve years of ease,
And work.

Our voucher will be stuck away,
And soon 'twill be forgotten,
While rings and Quills we'll all display,
Maybe.

With confidence we'll go our way,
With many years to come.
I'm sure we'll meet again someday—
Perhaps.

To the tune of: MOONLIGHT AND ROSES

The old school bells are ringing,
To us sweet mem'ries bringing
Of the dear old school.
Years have left us much to ponder
As along through life we wander—
We won't forget you
Though we have left you.

CHORUS:

Dear Marion High School,
We cherish fond mem'ries of you,
Dear Marion High School,
With your ideals ringing true.
Into our lives you
Have woven thoughts brilliant and new.
Dear Marion High School,
We'll always love you.

CLASS HISTORY

Two years of history are included in the Marion High School curriculum, one year of world history, and one year of American history. However, there is another history in our high school that is actually being written at this time; each chapter of which represents one year's activities.

The latest chapter of this history is just being concluded by the class of 1935 and is entitled OUR NEW DEAL. For this story we must go back four years. That fall two important things happened: a group of 68 students, later to be known as the class of '35, entered this school, and a new administrator appeared at the head of the school with a N. R. A. reform. Mr. Delbert J. Pugh instigated the NEW RULING ARRANGEMENT. and under that code Mrs. Bragg was designated administrator of the freshman class.

As soon as we were well settled down, we elected our class officers. They were Wyoma Carey, president; Donovan Goodyear, vice-president; Billy Reed, secretary; and Lois Lockwood, treasurer. On October 30, we turned out in the gym for the all high school dance and returned February 19 for a hard time party all of our own.

Our class early made several achievements. Billy Reed was the first member of the class to receive a letter when he played the required number of innings in baseball. Robert Munsen proved the ability of the Freshman class when he placed first in the home declamation contest. Ralph Hawk, Robert Munsen, and Margaret Ross represented the class in debate. The members of the class who were chosen to go to the State Academic Meet were Alice Wallace, Robert Munsen, and Ralph Hawk; Robert Munsen placed first in general science, and Alice Wallace placed second in English correctness. So we close the first chapter of our history.

The second chapter began in the fall of 1932. In September we gathered again under the guiding hand of Miss Rummens, our sophomore administrator. At class election Joseph Burrows was elected president; Don Goodyear, vice-president; Robert Widger, secretary; and Ruth Murphey, treasurer. The principal social events of the year were the all high school dance in October, the sophomore dance in December, and the sophomore-freshman party in February.

This year we were represented by Arminta Davidson in debate. Robert Munsen, Arminta Davidson, Edward Ferreter, and Alice Wallace participated in the home declamation contest. Those winning trips to the state academic contest were Anna Helen Martin, Jeannette Titus, and Margaret Albaugh. Margaret Albaugh placed seventh in world history. In the latter part of May we adjourned for the summer to meet again the next fall as juniors.

We start our third chapter as we have the others in the fall. We assembled under Miss Ila Anthony and Miss Vera Wood, and found Mr. Pugh's NEW RULING ARRANGEMENT really getting under way. School opened this year at eight-thirty, and the day was to be divided into six periods of one hour each and a twenty minute home room period. As soon as we became accustomed to the changes we elected Robert Munsen, president; Billy Campbell, vice-president; Kenneth Potter, secretary; and Lois Lockwood, treasurer. On October 5, we all went to Shaeffer's Park for a weiner roast. Early in November we started work on our class play, AS THE CLOCK STRIKES, which was presented December 17, and 18. On March 17, we invited the seniors to our class dance and made a big success of the evening. The climax of all social events thus far in high school for us was the junior-senior banquet, held in the O. O. F. Hall.

The achievements this year were many. Robert Widger and Waldo Johnson were added to the "M" Club. Arminta Davidson and Edward Ferreter placed first in the home declamation contest and then placed first in the state preliminaries. We were well represented this year in the State Academic Meet. Alice Wallace, Robert Munsen, Margaret Albaugh, Jeanne Slife, and Anna Helen Martin all participated. Alice Wallace placed first in English correctness; Robert Munsen placed first in biology; Jeanne Slife received ninth in American literature; and Margaret Albaugh placed fifth in American history. Perhaps the N. R. A. wasn't so bad after all.

The members of our class elected to Delta Sigma Delta were Jeannette Titus, Margaret Albaugh, Robert Munsen, and William Reed. In the latter part of the year a mathematics club was organized. Those who became members were Alice Wallace, Edward Ferreter,

A squad of approximately twenty-five men reported to Coach Wolfe for track in 1934. The squad went through its daily routine of callisthenics and jogging on the track in the old gym until the weather permitted it to go out of doors. The Coe track was then used the remainder of the season.

The squad participated in four meets and Coach Wolfe again proved his coaching ability by the fact that his men enjoyed another successful season. The bright spot of the season was the fine showing that Marion made at the Iowa State Teachers Relays. Five teams were entered and the result was three first, one second, and one third.

THE MEETS

Iowa State Teachers Relays—Led by Captain Smith, the quarter and half mile relay teams, composed of D. Smith, Widger, Hunter, and Ozias opened the schedule by winning both races. The two mile relay team also won. It was composed of Sheets, McKean, Johnson, and Reynolds. The mile relay team placed second, and the medley third.

Grinnell Interscholastic — Competition was very strong in this meet, but Reynolds placed second in the half mile run, Hunter third in the low hurdles, and D. Smith fourth in the 440 yard dash. The 880 yard relay placed third, and the two mile fourth. Marion placed sixth out of twenty-five schools entered.

District Meet at Cedar Rapids — Hunter placed fourth in the low hurdles. All three relay teams placed third. These teams were the 880, mile, and two mile relays.

Tri-Valley—In this conference meet Hunter was the outstanding performer of the day. He won the 100 and 220 yard dashes, and the low hurdles. D. Smith won the 440 yard dash and Sheets won the half mile. Other place winners were: Manson and McKean in the mile, Luwe in the high hurdles and high jumps, D. Smith in the 100 and 220, Reynolds in the 440, and B. Smith in the shot put and discus. Marion was first in the 880 yard relay and second in the mile relay. Marion was second in this meet with 47 points to Vinton's 53.

Those men who garnered enough points during the season to win an award were: Hunter, Widger, D. Smith, Ozias, Johnson, McKean, Sheets, Reynolds, and Manson.

Marion High experienced its worst football season in years during the fall of 1934. An inexperienced squad, with only four lettermen, reported at the beginning of the season, and while some progress was made, no great improvement was noticeable until the Monticello game late in the season.

Marion won three, tied one and lost five games during the 1934 season. However, only four lettermen are lost by graduation, and with thirteen lettermen being pushed by capable reserves for every position on the team, prospects are exceptionally bright for 1935.

Outstanding games in 1934 include the 6 to 0 defeat by Vinton, when Vinton was expected to win by a top heavy score; and the battles with Monticello and Anamosa, both of which were close and hard fought. Anamosa finally won a Turkey Day game from Marion after being on the short end of the score for seven successive years.

A squad of thirty men including three lettermen, Edwards, Luwe, and Reed, reported for the 1934-35 basketball season. After a week's practice, the squad was cut to eighteen men.

During the season the team didn't seem to have enough stamina to play a second half game. They had a brilliant offense, but their inability to make many shots count effected their offense. The score "13" proved fatal to the Crimson and Gold cause. Four times the home-guard wound up games with thirteen points, and many times it took them a quarter of play to break that score.

Marion played one of its best games of the season in the sectional tournament at Vinton in spite of the fact that the regular guards, Edwards and Derflinger, were out of competition because of illness. They lost because of their inability to check LaPorte City's offense. The score was 32 to 20.

Eight players were awarded letters at the close of the season. They are Captain Bill Reed, John Beeson, Dick Derflinger, Ross Edwards, Bill Fowler, Jim Hess, Dale Luwe, and Junior Reed.

With losing only two lettermen by graduation, Captain Reed and Jim Hess, the prospects for next year look exceedingly bright, with Beeson at center, Luwe and Fowler, and Reed at forwards, and Edwards and Derflinger at the guards. They should develop into one of the best combinations produced here in recent years.

The gym work was begun under the guidance of Miss Edith Benson. Getting accustomed to her ways, we began our first sport, baseball. This game afforded some breathless moments and plenty of excitement.

Later we picked our teams for volleyball and practiced a few times, when our last year's gym teacher Miss Ruth Crew returned.

We then began basketball. Many hard fought basketball games were played between chosen teams.

A kid party and a picnic at Thomas Park were enjoyed as social events this year.

The main purpose of the Girls' Athletic Association is to improve the general health, to improve the posture, to improve the carriage and develop grace of bodily movement, and to cultivate a spirit of fairness as well as a love of sport.

MATHEMATICS HONOR SOCIETY

The object of Zeta Mu Epsilon Society is to provide for the recognition of ability in the field of mathematics, the basis of all science, in the secondary level of education, to provide a means of continued interest and an appreciation of the growth of mathematics, and to provide an organization for the furthering of fraternal relationships of those interested in mathematics.

Persons eligible to join this organization must have an average of "B" in high school mathematics and an average of "C" in other subjects.

Four meetings of the year have been of an educational nature. At the first Elmerine Davis told the club of her experiences at the academic meet last May. At the meeting of October 15, 1934, Mr. Shutts gave the history of the first numbers and proofs.

Miss Rummens presented several unusual geometrical proofs, such as the nine-point circle and multiplication of lines at another meeting.

Club members enjoyed a social meeting March 18, 1935, which took the form of a St. Patrick's Mystery Party. Members of the freshman and sophomore classes who were eligible to join Zeta Mu Epsilon were invited, and during the evening were tested by the club members as to their mathematical abilities.

CLASS HISTORY

(Continued from Page 16)

Billy Reed, Don Goodyear, Crandall Weaver, and Ralph Hawk. And so ended our third chapter.

The year book was started under the leadership of Margaret Albaugh and Robert Mur sen.

We returned to the halls of Marion High School, September 4, 1934 to complete the last chapter of our history with Mr. Shutts as administrator. The dignity we assumed on becoming seniors did not keep us from having class election when William Reed became president; Arthur Steinmetz, vice-president; Wyoma Carey, secretary; and Jessamine Rundquist, treasurer. On November 16, we held the all high school dance in the gym, and a good time was enjoyed by all. A weiner roast was again held at Shaeffer's Park early in October.

Those winning football letters were Waldo Johnson, Bob Widger, Billy Reed, and Don Goodyear; and those who earned basketball letters were James Hess and Billy Ree. Arminta Davidson, Alice Wallace, Marian Cone, and Edward Ferreter represented our class in declam; Arminta and Edward won first and repesented our class in the state preliminaries.

We are now looking forward to baccalaureate and commencement, and we are wondering what they are about.

1935 CLASS PROPHESY

(Continued from Page 19)

STEVENSON, VIRGINIA, Model—Much photographed model in Saks Fifth Avenue Shop in New York.

STEWART, FRANCES, Matron—Matron of an orphanage in Hollywood.

STITZEL, LOIS, Chiropractor—Following in the footsteps of her famous father.

STONE, EDYTHE, Radio Announcer—Successor to Lady Esther in announcing her renowned Lady Edythe Cosmetics.

TITUS, JEANNETTE, Champion—Woman heavy weight champion of the world.

VOORHIES, ALBERTA, Physicist—Successor to Professor Shutts in Marion High School.

WALLACE, ALICE, Proof reader—Reads columns of newspapers, and as yet hasn't failed to find an error.

WARE, RICHARD, Insane—Inmate of Independence Hospital. Insanity due to over study and worry over physics in M. H. S.

WEAVER, CRANDALL, Janitor—Fulfilled his life-long ambition. Employed at Vassar College for Girls.

WIDGER, ROBERT, Coach—Director of athletics in Sodtown High School.

BY THESE YE SHALL KNOW THEM

Arminta Davidson—Her fingernails are still in the red.

Joe Kaufman—A conscience as tender as a sunburned neck.

Edward Ferreter—"Ed" may be compared to a mosquito. When he stops making a noise, you know he is getting into something.

Bernice Sidlinger—A human fly that buzzes.

Margaret Ross—A regular teakettle — always boiling over.

Marian Cone—She's not the kind who stays quiet when her friends are being criticized. Oh, no, she joins right in.

Bob Munsen—He receives news (?) with his eyebrows.

"Wimpy" Widger—He has found a new use for razor blades. He shaves with them.

Bessie Cimprich—She is beset with the eternal buttoning and unbuttoning of life.

Bob Munsen—He is in his anecdotage.

Wyoma Carey—She stands for what she thinks others will fall for.

The Publication of the

QUILL

is made possible by the business men of Marion. In future years this issue will be priceless.

In School, College, Business and Professional life.

CO-OPERATION SPELLS SUCCESS

THINGS WE WOULD LIKE TO KNOW

What makes our clocks run (?)

What teacher keeps the trail from here to Cedar Rapids warm?

Who set off the bomb in study hall?

What member of the faculty says "and therefore?"

Whose reptile was meandering around the halls?

Who was kind enough to donate incense to the study hall?

Who supplies all the diamonds you see at school?

What makes the world go around?
